Trying to secure a booking

For the best chance to secure your preferred accommodation, we recommend booking online via our website. Please refrain from using multiple devices when booking as this puts strain on our website and will impact load times.

If you choose to try call us, wait times will be longer than usual and our call queues may not be able to accommodate everyone trying to get through.

Plan ahead

- » Know what accommodation type & dates you're after, have a second option ready to go in case your first preference isn't available
- » If booking as part of the RAC member pre-sale, have your RAC member number ready to go
- » If you're booking a caravan or camp site, have your equipment dimensions ready - you'll need to enter these as part of the booking process
